WORK EXPERIENCE

b720 Fermín Vázquez Arquitectos

Barcelona / Spain

Architectural Intern

01.2026 – Present

- Contribute to international competition projects from concept to submission, developing parametric models and design iterations under tight deadlines.
- Produced visual and technical deliverables, supporting final competition presentations.
- Developed parametric façade systems in Rhino & Grasshopper, generating multiple design iterations to evaluate geometric and performance-driven outcomes.

EMBA Architects

Istanbul / Turkey

Junior Architect

01.2023 – 05.2024

- Developed parametric competition proposals in Rhino & Grasshopper, producing 5–10 design iterations per project within short deadlines.
- Produced high-quality visualizations using Enscape and D5, supporting submissions and presentations.
- Coordinated workflows between Rhino and Revit environments, streamlining transition from concept design to BIM development.

Melike Altınışık Architects

Istanbul / Turkey

Architectural Intern

06.2022 – 12.2022

- Developed parametric façade systems in Grasshopper, producing multiple geometric configurations for design evaluation.
- Created fabrication-ready models for 3D printing, translating computational geometry into physical prototypes.
